

Ferndale Addition

-IS THE PLACE FOR-
PLEASANT SUBURBAN HOMES!

BECAUSE

The southern winds of summer cannot contaminate the air with the city's miasma in Ferndale addition.
The southern winds of summer cannot fill your home with sand and dirt from the city's streets and alleys in Ferndale addition.
The southern winds of summer cannot make your green and shady lawn a receptacle for blowing trash and papers in Ferndale addition.
The southern winds of summer cannot permeate your home with noxious gas and odors in Ferndale addition.
The southern winds of summer has no terrors for the housewife or invalid whose home is in Ferndale addition.

BUT

The southern winds of summer make music in the branches of the massive oak and hickory in Ferndale addition.
The southern winds of summer murmur to the carol of the birds in Ferndale addition.
The southern winds of summer kiss the waving lawns with tender breath in Ferndale addition.
The southern winds of summer cool the shady grasses beneath the leafy trees in Ferndale addition.
The southern winds of summer make life a pleasure in a home among the verdure of Ferndale addition.

LOOK AT

This addition now on the market. See the water colored drawing of the plat.
The lots are 100x350 and 450 feet; are south of Main street, face a 134-foot avenue which is nearly a mile long.

Rooms 1 and 2, Williams & Pennington Block, Main Street, Ardmore, Indian Territory.

CROP BULLETIN.

Below is given the report of crops for Oklahoma and the Indian Territory from the weather and crop bureau at Oklahoma City under the supervision of the United States department of agriculture for the week ending May 14.

The average temperature for the past week was 66 degrees. Average rainfall 1.59 inches. Average sunshine 50 per cent.

From Tuesday morning until Saturday afternoon the weather was cloudy and cool with frequent showers; Sunday and Monday, clear and warm. Abundant rains are reported from every section, almost too much (except greater portion of southern section) keeping the ground too wet and delaying work. Corn is growing rapidly but needs cultivating; at the close of the week the ground was sufficiently dry to admit this work.

Cotton has not done so well, the rains, and cloudy weather has not been conducive to rapid growth. The crop now is about all planted, (largely increased acreage over former years), most of it up nicely, and with warm weather and plenty of sunshine will be O. K.

Wheat is very rank and the indications are favorable for an immense crop.

In spite of the large amount of rain and cloudy weather, less rust is reported than the preceding week and no damage is likely to result anywhere with the single exception of southern portion of Canadian county; our reporters from this county state that many fields will be almost completely ruined and not worth reaping.

Chinch bugs have been almost destroyed by rains and can do little or no injury.

Grass has made phenomenal growth. Early potatoes and other vegetables are on the market. Altogether the outlook for crops of all kinds has never, in Oklahoma's short history been more encouraging.

A. B. McCoy has purchased the drug and grocery stock of Dr. Walter Hardy at Daugherty and has taken

charge of the business. He will probably move to that place in the near future. He is a most excellent gentleman and the Ardmoreite wishes him success.

A HOLE IN THE GROUND.

Four Hundred and Fifty Miles Around—The Grand Canyon of the Colorado River in Arizona.

This Titan of Chasms is the grandest and most sublime scene in the known world. No where in human experience can the like be found. The beauty of this grand scene have recently been portrayed by America's greatest landscape painter, Mr. Thomas Moran, in a painting 63 1/2 feet, shown at the World's Fair, and valued at \$25,000. By special permission of the owner to the Santa Fe route, a lithograph, size 23 1/2 inches, has been made, which in all its details, is an exact reproduction of the painting itself, and is worthy of place and display on the walls of any man's parlor.

UP IN THE SKY.

Over Two Miles High—Hagerman Pass in the Rocky Mountains.

This is the point at which the Colorado Midland Division of the Santa Fe crosses the Continental Divide in Colorado, and is 11,500 feet above the sea level. From the summit one may look down the mountain side and see five parallel tracks, covering a distance of fourteen miles, winding up the mountain side. This, with the spots of snow, furnishes a picture hard to describe.

This scene of nature has been painted by Mr. Chas. Schuchman, the famous scenic artist from whom a fine engraving has been made, mounted on heavy Bristol board, size 22 x 24 inches. This engraving is one of the most attractive and nature-like pictures of mountain scenery ever executed.

These pictures are high-art advertisements of nature as it is, and nothing shows that they are distributed by the Santa Fe route. A limited number of these pictures, unframed, may be secured at \$1.50 for the lithograph, and \$3.00 for the engraving, and will be sent by express C. O. D. With either of these will be sent an illustrated pamphlet on the Grand Canyon of the Colorado River, and an interesting book on the subject of a trip "To California and Back."

Address: W. S. KEENAN, G. P. A., C. & S. F. RY., Galveston, Texas.

Dr. W. T. Gardner went to Davis this morning from where he goes to Rock Creek to visit Will Flemming professionally.

Do you want screen doors and windows? If so, call at cabinet and job shop opposite postoffice. W. B. Lawrence.

Mr. and Mrs. J. H. Darrah and Miss Morse left this morning for Oklahoma City where they will visit for a few days.

WANTED.

An active agent in each county in the United States, to solicit subscriptions for the Twice-a-Week Republic. A liberal commission will be paid to hustlers. Address Superintendent Circulation, The Republic St. Louis, Mo.

CATS AS AERONAUTS.

Many are the strides of advancement made every day in all branches of invention, but it remained for an Ardmore boy to surpass all previous efforts in aeronautical achievements in devising ways and means whereby a cat made a successful parachute voyage far up into the dizzy heights and returned safely to mother earth. The cat is made fast in a miniature parachute which is then attached to a kite of ordinary make. After ascending to the desired height the parachute is detached by working a mechanical contrivance, not yet patented. Cat and basket are left to take care of themselves. Several experiments have been made all attended with success. It is said the cats do not take to the sport as well as do the boys.

By clubbing with the Gazette the Ardmoreite is able to offer to its readers a most excellent combination of local and general news, all fresh on the day of happening for only \$1.10 per month for both papers.

The Ardmoreite acknowledges a call this afternoon, one of a number within the last few days, from George W. Thrasher. Come again George you are welcome no matter what the mission.

DO YOU WANT

a desk, writing table, counters, shelving, or any cabinet or job work of any kind, then call at cabinet and job shop opposite postoffice and have the work done as it ought to be.

W. B. LAWRENCE.

Save your papers and vote the coupons for some friend who wants a business education.

Architect Frank W. Kane goes to Fort Worth this afternoon to join his wife who is visiting in that city.

Remember to send in your votes for your favorite for the scholarship.

Commissioner Scott's court was idle today.

The negroes organized a lodge K. of P. last night, meeting for that purpose in the rooms adjoining the Ardmoreite office. Judging from the

noise they kept up they must have entered upon their lodge duties with a goodly number of members.

Attend church tomorrow and that far alone for your week's meanness.

Judge Stewart arrived in Washington yesterday.

The names and votes of contestants for the scholarship will be published from day to day.

Dr. Bogie is in Paris in obedience to the mandates of the U. S. court, not as a defendant but as a witness.

The Christian church protracted meeting is attracting a great deal of favorable attention. Evangelist Sanders is captivating the people with his eloquence and religious fervor.

Capt. Nat. Smith, of the Alliance Courier, came in from Woodford this morning. He reports flattering prospects for good crops in his neck of the woods.

Creditors and debtors alike are always welcome to the Ardmoreite office to witness our labors by both day and night for their good.

The Knights of Honor will meet tonight at Odd Fellows hall for the transaction of important business. All members are requested to take notice and be in attendance.

H. H. Pennington and E. H. Davies have associated themselves under the firm name of the Ardmore Lumber Company, with D. Davies as manager. Their office and yard for the present are at the Central wagon yard on Caddo street.

Advertise in the Ardmoreite.

Reports from the Wolf Ridge country, six miles north west of Gainesville, bring the information that the prospects are most flattering for the best wheat crop ever raised in that locality. The wheat now is in full bloom and will be ready for harvesting in about two weeks.—Gainesville Register.

Who will receive the first vote?

WASHINGTON NOTES.

Forty-three fourth-class Postmasters were appointed yesterday.

Several more amendments to the tariff bill were passed in the Senate.

The Agricultural Department came in for a scoring in the House yesterday.

The matter of shutting off debate on the tariff bill in the Senate is being agitated again.

Senate Republicans held another conference on the tariff, but decided on no plan of action.

Many Congressmen are growing uneasy owing to their inability to get home and fix their political fences.

It has developed that an attempt has been made to bribe Senators Kyle and Hutton to vote against the pending tariff bill.

Representative Bryan has introduced a Nicaragua Canal bill differing radically from the measure prepared by Senator Morgan and now pending in the Senate.

Rapid Advance of the Japanese.
Another incontrovertible proof of the rapid advance of the Japanese in the civilization of the West is the following advertisement, which appeared in a Tokyo paper recently: "A young lady wishes to get married. She is very beautiful, has a rosy face, which is surrounded by dark curly hair. Her eye-brows show the form of the half-moon and the mouth is small and pretty. She is also very rich, well-read enough to admire the flowers in the daytime at the side of a life companion, or at night to sing of the stars in heaven. The man whom she will choose must also be young, handy, agreeable and well educated, and be ready to share the same grave with her."
